COOKING STOVE

[We would call the attention of the reader to the Report of the Worcester County Mechanics' Association, held in the city of Worcester Sept 1848] 112 *Hot Blast Air Tight Cooking Stove* contributed by Gordon Williston Worcester This stove has an entire new principle in applying the heat to the baking or broiling of meats The fine flavor of meat cooked directly upon the coals is the result of the action of the carbon To broil on coals or over coals in our best Stoves where this flavor is acquired is both a difficult and disagreeable operation But in this stove a steak was broiled in three minutes without any smoke or odor escaping into the room It was evenly and well cooked and had all the pleasant twang of a coal broil A large oven immediately over the ordinary oven, is so constructed that the whole body of heat can be made to pass through it forming for the time being a flue for the draft This arrangement secures all the qualities of a good broil or bake in meats without the labor usually attendant on such affairs It likewise has good radiating qualities with large oven and convenient arrangements for cooking furniture —[Silver Medal

Cholera, Dysentery,

....AND....

Diarrhœa Cordial,

—AN—

Immediate and Perfect Remedy,

....FOR....

Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement—It has been before the public for more than seventeen years and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE

OF THE

CHOLERA

It has been thoroughly tested in every country and every climate, and its effects in every case proved the same

SURE TO CURE,

even where the disease has advanced to its last stage

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA both at home and abroad and of the little success which has thus far attended the attempts to check its frightful inroads on human life

Such being the fact it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera and eradicating it from the system

Mrs Kidder would most respectfully call the attention of the public to this invaluable medicine known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine when the disease had advanced to its last stages

It is hoped that every housekeeper will keep the Cordial at hand and if timely administered but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

This Cordial immediately checks the vomiting relieves the pains, stops the Diarrhœa and restores the bowels to a perfectly regular and healthy state however severe the attack may be or however low the patient may have become it invariably restores

The Severest Cases of Dysentery

are immediately counteracted the pains allayed, the bowels healed and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours

Chronic Diarrhœa,

Either in children or adults, of months or years continuance is most readily cured with this Cordial notwithstanding they may be reduced to mere skeletons, it immediately strengthens and shortly restores them to perfect health

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint—it gives them immediate relief and they very soon recover

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness It checks the vomiting and readily restores the patient It invariably checks vomiting produced from any cause whatever

Children that are Teething,

if inclined to Diarrhœa should always be provided with this medicine as it will keep the bowels regulated and keep off the Canker It is wholesome, safe and plean ant to the taste, and children are fond of it and will take it without trouble or dislike

For General Debility and Dyspepsia,

it is a most excellent restorative giving a healthy tone to both the stomach and bowels and prevents food from pressing or distressing the stomach

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution

CAUTION.

Be sure that you obtain MRS E KIDDER'S CHOLERA MORBUS DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article, which has ever been in the highest estimation by the public throughout the whole country

It is put up in bottles holding nearly a quart, intended for family use and sold at One Dollar per bottle

WASHINGTON

NO 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office in accordance with the 10th Sec of Act of 37

Having relinquished the Agency for the transmission of Models and adopted a more expedious mode of sending them to the Patent Office *where both Patent now be procured about twelve weeks earlier* he continues to forward them free of expense—to prepare Caveats Specifications Assignments and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents They also have the advantage of *being* explaining their inventions and of consulting in respect to them, *matters, in general of no amount importance in order to obtain correct specifications and claims* The experience of sixteen year's practice, an extensive collection of rare works decisions &c on mechanical subjects, the Patent Laws and patents of different countries collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment

Examinations in Physiognomy.

At the request of several persons who are interested in the subject of Physiognomy and particularly in the examination of the signs in the face by Dr Sammis, he will delivery this evening at the City Hall, to the examination of such subjects as the committee appointed on Thursday evening may select or as the audience present may choose The committee are trying to get some first rate subjects These examinations will unfold very clearly many of the signs of character and afford an analysis of many of the more important faculties of the human mind

The price of admission will be twenty five cents, and we should suppose that sufficient interest has been awakened here in Physiognomy by Dr Sammis and Hudson to insure a full house on this occasion

The Lynn News of the 17th inst contains a notice of Dr Sammis in which the editor says that he is satisfied that he has been maliciously and unjustly accused—that the papers containing attacks upon him have been industriously circulated probably by the same clique who originated the charges and, that marked copies of those vile sheets have been sent to editors in different parts of the country He then says

"With a knowledge of such a base and cowardly attempt to defame Dr Sammis we feel that it our duty to say to the public that the confidence of those who know him in this vicinity is not materially impaired by the reports so singularly set in circulation We have no hesitation in again recommending him to the citizens of Bangor—where he now is—as a gentleman of undoubted honor and integrity

Firemen's Visit

On Thursday evening after enjoying the day at Oldtown, the Eagle Engine Company returned in the cars to the city with their guests the Cascos of Portland and marched to their engine house where they were provided with torches and proceeded through a few of the principal streets, and would have gone through more but for the fatigue of their guests who had been on duty for several days in succession — The display was very fine and received much applause.

There were very many pleasant interviews between our firemen and the Cascos at the Bangor House in the evening, and on yesterday morning this fine body of men departed for their homes, having secured many friends pa which will never be forgotten

At the different entertainments given here by our firemen to the Cascos there were many sentiments given well worthy of preservation — We have been unable to collect them, though we doubt not that many of them will be remembered and often repeated

☞ A Washington correspondent of the Boston Atlas intimates that a late Pension Agent in New England, who has filled many offices, from editor of a newspaper down to Senator in Congress and Governor of a State, is a defaulter in the sum of $13 000 No names are mentioned

☞ The Cascos intended that their Torch light procession with the Cascos on Thursday evening should pass through all the principal streets of the city, but the rain and the light dress of the Cascos compelled them to disappoint the public, and return to their quarters after a very short march

They feel very thankful to their friends who had kindly provided fireworks and other manifestations of welcome on the supposed route of the procession, and promise to make another demonstration before long, which may compensate in some degree for the disappointment in the present instance

Letter of Dr. Benson on the Cholera in Hampden.

Having just returned from Hampden whither I went for the purpose of ascertaining the nature of the epidemic which recently broke out in that town, I have been requested to give my views to the public I gathered the facts of the history of many of the cases from my friend and former pupil, Dr B R Baker who seems to have been in the midst of the epidemic which appeared to be of a very contagious character meeting it at all points, regardless of danger, which has won for himself much credit as he certainly deserves

That there should be different opinions entertained even by medical men in relation to its *name* or its true nature is not remarkable, as it is probably the first time we have ever been visited by Cholera in this part of the State I cannot for a moment doubt the sudden deaths in Hampden and its vicinity were from Asiatic Cholera and that it was propagated by contagion is equally plain The reason why it found its limits so soon after the invasion, is, that the poison was not received in a kindred or cholera atmosphere and hence it became diluted, and incapable of developing those terrible phenomena witnessed in those who felt by it

The great and leading feature of cholera is its epidemic character and like Typhus and Scarlet fevers is confessedly contagious, under contingent circumstances in which the atmosphere of localities become so contaminated that they directly cause the disease and it is for a given time for reasons before shown, capable of being propagated from one person to another

And moreover, there are peculiar conditions of the system which renders it more susceptible of the poison such as intemperance filth want of sleep, and healthy food, and the air of crowded sleeping apartments in short anything which exhausts the vital powers, whatever it may be that weakens the force of resistance to atmospheric influence

If this doctrine or view of the subject be correct it shows us that while we admit Cholera to be contagious, it is only so under the circumstances above mentioned And therefore let us all prepare ourselves to meet the scourge — Bathe often strictly observe cleanliness from cellar to garret lay aside all anxiety and fear, as these above all depress the tone of the system, and render it peculiarly liable to Cholera

Let us resolve, come what may to bestow every kindness of our nature upon the sick, dispensing none on account of poverty, or contagion and let every man resolve to be a member of the board of health and all Municipal authorities be vigilant and active and it is especially the duty of *physicians* to study this subject, and come forward to counsel and support them It is then and not till then that we shall see the pestilence that walketh at noonday successfully encountered JOHN BENSON

The Secret Armed Expedition.

The late proclamation of President Taylor has caused some anxiety to be manifested on the subject of the secret expedition supposed to be fitting out in some parts of the country for foreign aggression—and there seems to be abundant reason for believing that a well concerted movement has been in progress in New York as well as New Orleans or other places in the Gulf of Mexico, having for its object the invasion of Cuba or Yucatan, or that portion of the republic of Mexico in the neighborhood of the Sierra Madre We trust, however, that the decided stand of the Executive, will have the effect of breaking up the whole of the ill advised arrangement A correspondent of the Republic, writing from New York says —

I have myself conversed with individuals who were approached on the subject by the agents of those engaged in the movement in Cuba and the United States and place all credit in their statements From their accounts it appears that about three months ago certain persons who are well supplied with pecuniary means and are duly authorised to act for wealthy planters in the Island of Cuba, sought their aid on this military expedition, making the most liberal offers, and promising the most tempting rewards in case of success A great many men have been enlisted in this city for the work and had it not been for an accidental and unexpected failure in effecting the purchase of a vessel the branch of the expedition would have sailed some weeks ago It has not yet sailed, but I have reason to believe that it will leave this port in a short time, without the possibility of detection Another branch of this expedition has been organized at New Orleans and the remaining parts are already encamped on the island in the gulf This movement has been contemplated for some time, and all the preparatory measures have been taken with a great deal of judgement and prudence

The New York Express in an article on this subject, furnishes the following definite information

"Meetings are nightly held in this city some secretly, some more publicly and organizations of a very extensive character are forming for secret expedition, of which no one engaged but the leaders know anything Several bodies of men, numbering over one hundred each, have organized themselves into regular military divisions and have entered with the coalition which, is now assuming a shape too formidable to be overlooked On Monday evening, a large number of these men met at La Fayette Hall, when the meeting was called to order by Colonel Carr A large number enrolled their names on the promise of seven dollars a month and a thousand at the end of the year Next Saturday is the appointed time for sailing, and while the real destination of the expedition is unknown, it is given out as a gold hunt to California They however promise to divulge the real nature of the enterprise to the members on the day of sailing Saturday next Some think it is to California they are going, and others that they are to espouse the cause of the whites in Yucatan but it is most to be feared that despite the plain and straightforward proclamation of President Taylor, warning all against such an expedition, as a violation against the laws of nations that the true destination of the armed force is Cuba

The men engaged in this movement, are young men, who are out of employment, but are good looking stout, healthy persons, ripe for any exciting adventure, indeed many of them are volunteers who have been in Mexico, and who showed as great a relish for this expedition as they did for that

We therefore wish to caution one citizen that they look on both sides of the picture before they engage in this enterprise By virtue of the recent proclamation of President Taylor, and in the eyes of the law, all Americans, engaging in an unlawful expedition against the head of the Island of Cuba, in fact deliberately expatriate themselves and forfeit their rights to the protection of the government

Gen Taylor's journey through Pennsylvania is one continued series of popular triumphs We doubt whether any late occupant of the Executive chair has been received with half the enthusiasm evinced towards President Taylor He is emphatically the man of the people, without show official pride or ostentation, and the people everywhere welcome him with the kind est and warmest feeling We have not space to give a full account of his reception as he proceeds on his journey The President arrived at Pittsburgh on the 18th, and met a most cordial reception from thousands of the citizens The turnout of the military was very imposing Flags and banners were flying in every direction Throughout the whole line of the process, the General and suite were greeted with the most kind and flattering demonstrations — Thousands upon thousands of the citizens, and those of the surrounding towns, assembled to give him welcome The Hon Walter Forward who had been appointed at a preliminary meeting received at the hero of Buena Vista in a speech The speaker was answered in a happy manner by the General and Gov Johnston —Hundreds of bouquets were presented by the fair daughters and were acknowledged by the old man of the White House, in a most courteous manner No accident occurred to mar the pleasure of the occasion —[Lowell Courier

Law School at Cambridge.

The Atlas states that a New Professorship has been established in this school, and that the Hon Frederic H Allen of this city, has been appointed University Professor Mr Allen is a native of this State, and has been a member of our Legislature Several years ago he removed to Bangor and was subsequently a Judge of the District Court This office he held several years, and made a popular Judge He recently resigned the place and removed to this city — Judge Allen is a gentleman of most agreeable manners a sound lawyer, an estimable man, and cannot fail to give great satisfaction as a law professor [Boston Journal

A Curious Case of Surgery.

Some time ago a little child of Mr Lothrop at the foot of Sudbury street was playing with a pair of bivalve shells round in form and each fully as large as the eighth of a dollar when one of them disappeared and nothing could be found of it After several weeks there was an appearance of something growing in the child's mouth in the roof of it The child was carried to Dr Clark the city physician who pronounced it a case of the enlargement of some bone the anatomical name of which is too hard for us but we will call it one of the rafters of the mouth Subsequently Dr Warren was consulted who confirmed Dr Clark's opinion and proposed to operate to reduce the size of the enlarged bone On cutting around the protuberance the before mentioned shell fell out It seems to have adhered the concave side up to the roof of the mouth till it had become completely imbedded under the skin —[Chronotype

☞ Mr Severance, son of the editor of the Kennebec Journal in one of his letters from San Francisco, dated June 26 thus writes

Do not think of sending any thing *at this time* for sale here unless it be lumber Chili cannot supply California fully and her lumber is inferior to that from the United States Oregon cannot saw it fast enough for this market and besides that she has no one to cut it for market I wish I could command a dozen ships cargoes of lumber at this moment I should not ask for mines tools or earnings your old barn would pay some $20 000

The Liquor Cases.

Of the several suits before the District Court in this town brought up by appeal from the Justice Court verdicts of guilty were rendered against six The 10 or 12 other like suits were defaulted on their recognizances

The persons indicted for conspiracy for assaulting Justice Baker were all defaulted on their recognizances except one who was recognized to appear at the next term in December —Ken Journal

Epitaph on a Candle.

A *wick ed* one I lies buried here,
Who died in a *decline*
He never rose to rank I fear
Though he was born to *shine*

He once was *fat* but now indeed,
He shrunk as any *grieved*
He died the doctors all agree,
In a most *burning* fever

One thing of him is said in truth,
With which I am much amused,
It is that when he stood, forsooth,
A *stick* he always used

Now *tounding-sticks* he sometimes made
But this was not enough,
For, finding it a poor sh trade
He also dealt in *snuff*

If ever you said go out, I pray,
He much ill nature showed,
On such occasions he would *say*,
"Why, if I do, I am *blowed*

In this his friends do all agree,
Although you'll think I am y king
When *going out* he said that he
Was very fond of *smoking*

Since all religion he despised,
Let these few lines suffice,
Before he ever was baptised,
They *dipped* him once or twice

LIVERPOOL, Aug 11

Every department of trade continues in a healthy state There has been rather less business going forward in the produce market during the last few days, but prices are well sustained, and the markets upon the whole wear a very cheerful aspect

FLOUR —The demand is of a mere retail character, at 24s a 24s 6d per bbl for sound parcels In the London markets it is quite neglected Inferior parcels are nearly unsaleable and may be quoted at 18s to 21s per bbl

CORN —Yesterday there were considerable sales of good yellow corn at 24s to 24s 6d per quarter, white is scarce and sells in small parcels at 25s to 25s 6d per quarter, corn meal 14s to 14s 6d per bbl Of the three articles above there has been imported in the last 7 days 9 708 quarters of wheat 4 763 bbls of flour 7,910 qurs of Indian Corn and 637 bbls of Indian meal

ENGLAND

The cholera continues constantly on the increase

Col Edgar Ney is to leave Paris to morrow for Rome, and will be the bearer of despatches appointing Gen Rostolan Commander in Chief of the army in Italy in the place of Gen Oudinot The cause of Gen Oudinot's recall is said to be his inability to work in harmony with the Pope who has always looked upon him with suspicion

ITALY—ROME

Things remain in exactly the same state to far as the Papal Government is concerned as they were on the day Gen Oudinot entered Rome

France remains quiet

Accounts from Hungary are confused and contradictory The London Times says the Austrian and Russian Army 60 000 strong attacked by Bem with 40 000 Imperialists were defeated leaving 10 000 dead and wounded nearly all their artillery and 8 000 prisoner

The Vienna Journal, 5th, says the Hungarians stole a march on Raab and took the city together with 60 000 bushs Oats, 2400 head cattle and large stores of miscellaneous provisions which they carried to the citadel of Comorn

Boston Music Teachers' Association

Musical Convention for 1849

THE meeting which has been advertised for August 14th is postponed until

MONDAY, OCTOBER 8th

This postponement has been made in consequence of the severe heat so common at this season of the year causing much inconvenience and some sickness in years past By reason of the prevalence of the Cholera in many parts of the country although Boston happily has been thus far nearly exempt from the disease it is deemed prudent, while there is a susceptibility of the malady to avoid all exciting causes it is therefore regarded as especially injudicious to hold a series of meetings requiring so much exertion and productive of so much excitement at this time the present year

PERFECT HEALTH,

A LIFE SAVED.

Most Wonderful Cure of a man 80 years of Age

In the month of November 1846 I was attacked with inflammation in my great toe which soon broke out in a running sore *Mortification ensued* and the first joint of my toe *came off* After this I was under the care of the best physicians in the country—very recently I had been twice to without any help The agony of pain I endured no one can imagine for I can even run up my leg to my thigh and had become so bad that my physicians despaired of ever being able to cure me, and after four months confinement to my bed finally told me I must *prepare to die*—this was soon on the warm weather set in gangrene would mortify and death ensue I gave up in despair One of my friends brought me a bottle of HUNT'S LINIMENT which he said would relieve the pain I applied it and the effect was wonderful, it seemed as if new life was put in me In using one bottle the whole inflammation of my leg changed to its natural color the pain left me, and two 50 cent bottles entirely cured me to the astonishment of myself and the whole neighborhood *Hunt's Liniment saved my life* I am 80 years of age and make this public that every human being may know the value of this great medicine

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extracts put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold it cures without vitiating purging sickening or debilitating the Patient

The great purity and superiority of this Sarsaparilla over all other medicines is, while it renovates the system it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person but it *creates new, pure and rich blood* a power possessed by no other medicine And in this is the grand secret of its wonderful success—It has performed within the last five years more than 100,000 cures of severe cases of disease at least 35 000 were considered incurable It has saved the lives of more than 5,000 children during the two past seasons

10 000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY*

Dr Townsend's Sarsaparilla is vigorous to those who feel a general prostration of the nervous system Indeed it will be found a most extraordinary degree

CONSUMPTION CURED

Debility and Strength in Consumption can be cured Bronchitis Consumption Liver Complaint Colds Fever Chills Ague Spitting of Blood Sore Throat in the Chest Hectic Flush Night Sweats Difficult or painful expectoration Pain in the Side &c have been made to be cured

SPITTING BLOOD

New York, April 28 1847

Dr TOWNSEND—I very lately have had my attention drawn to your Sarsaparilla through the medium of a friend who had been spitting blood for a long time I have for several years suffered from a cough which at times was so severe as to cause me to spit blood I had night sweats and was greatly debilitated and reduced and did not expect to live—I have only used your Sarsaparilla a short time, and this is a wonderful fact, I have been enabled to walk all over the city I earnestly recommending the use of this truly valuable medicine to those afflicted with the disease—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use when applied to the face, very soon spoil it of its beauty They close the pores of the skin and clock the circulation which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalines used in some, constitute its own production in this' human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free active and healthy circulation of the fluids or the circulating of the pure, rich blood to the extremities, is that which paints the delicate carnation in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe This beauty is the offspring of nature—not of powder or soap If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow if she paints and use cosmetics, and the blood is thick, cold and impure, she is not beautiful If she is brown or yellow, and there is pure and active blood it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who sell medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females recommended theirs, although previously they did not A number of these Mixtures, Pills, &c are injurious to females as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—They were afflicted very severely with bad sores, have taken only four bottles it took them away, for which I feel myself under great obligation Yours respectfully

EPILEPTIC FITS,

For twenty seven years and six months, cured by the use of this truly wonderful vegetable

Read the following remarkable case of the son of Wm Rose one Esq of Philadelphia afflicted with Epileptic Fits for twenty seven years and six months—After travelling through England Scotland Germany and France, consulting the most eminent physicians, and expending form the receipt medical treatment and advice three thousand dollars, returned with his son to this country in November last, without receiving any benefit whatever, was cured by using

HART'S VEGETABLE EXTRACT

I have spent over three thousand dollars for medicine and medical attendance I was advised to take a tour to Europe with him, which I did First visited England I consulted the most eminent physicians there in respect to his case they examined him and prescribed accordingly I seemed to be benefited without perceiving any change for the better which induced me to spend two hundred and fifty dollars, pocketed by the physicians and the most that I received was their opinion that my son's case was incurable, and

POSITIVELY INCURABLE

I accordingly left England, travelled through Scotland Germany and France and returned home in the month of November with my son as far from being cured as when I left I saw your advertisement in one of the New York papers and concluded to try Hart's Vegetable Extract I sing your statements and certificates of so many cures some of twenty and thirty years standing and I can assure you I am not sorry I did so as by the use of Hart's Vegetable Extract my son has been restored to

PERFECT HEALTH

His reason which was so far gone as to unfit him for business is entirely restored with the prospect now before him of life, health and usefulness He is now 26 years of age and 27 years 6 months of this time he has been afflicted with this most dreadful of diseases but thank God is now enjoying good health

Now, sir, faith without works I don't believe in—To say I shall be ever grateful to you is one thing, and as I here enclose you one hundred dollars I have no doubt you will think this another and quite a different thing The debt of gratitude I still owe you, but please accept this amount as interest on the debt in advance Yours very respectfully,

(Signed) WILLIAM SCORE.

A. B. DOWN'S

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

IS the most effectual remedy in the world for *Colds Coughs Whooping Cough Croup or Quincy, Asthma, Pain in the Side or Stomach* and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints, in the following particulars

1st—It never irritates the organs it should soothe—never dries up the cough, leaving the cause untouched—but first *loosens the cough increases the expectoration or spitting* then remunes the cause *eradicating it completely* from the system, when as a matter of course the *cough ceases* and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a lax tive effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration* thus expelling by the pores of the skin, those noxious fluids and impurities of the blood the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWN'S ELIXIR is a specific for all the ills that flesh is heir to but we do say, and can confirm by incontestable evidence that for

CONSUMPTION,

And all all diseases of the *lungs the liver and the pulmonary organs*, it is *unrivalled—unequalled*—HUNDREDS by have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed too long its use*, have found in the advanced state of their disease that RELIEF FROM SUFFERING, which they had vainly sought from every other source

This INVALUABLE MEDICINE is *nicely concentrated* and put up in 2 oz and 4½ oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures, from every part of the country, many of which have been published *and may be had gratis of any of our agents*
